– Big Prizes –

INTERNET PRESENCE

(reaching out)

Ashlar College has developed two (2) Facebook Pages, one public and one private. The public page is dedicated to raising awareness of Ashlar College and its programs and courses. The second page (closed) is a unique group page designed for students who are registered with the college to discuss topics and share ideas. This group page is there to support those enrolled in the college and is an added bonus for students. Ashlar College hopes that these tools will help brethren reach their Masonic Educational Goals and increase the enjoyment of our craft.

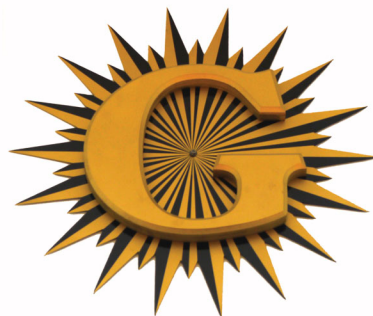

Freemasonry

Is a very personal journey, it is not casual or “drive through”, it is, on the contrary, a sincere journey of in-depth search and discover. If the directions and signs along the road are carefully observed and interpreted, the traveller will eventually be lead to discover the plan for a moral and useful life: *“To raise a super-structure perfect in its parts and honourable to the builder”*

To realize the benefit of such a journey

The traveler must invest considerable time and thought. The objective of Ashlar College of Freemasonry (ACF) is to offer the Brethren of this jurisdiction an opportunity to engage in a program of Masonic Enrichment through research curriculum of written papers, suggested readings, and personal submissions of assigned topics. An appropriate allegorical summary for such a study program might be one from G. Hopkins, a researcher of some time ago: *“In a country rich in gold, observant wayfarers may find nuggets along their path, but only systematic mining will provide the currency of nations”*

What qualifications do I need to join the Ashlar College of Freemasonry?

Our ACF constitution will allow Master Masons to register. There are no academic qualifications required by the students. All Master Masons eager to learn more about our fraternity at their leisure, are welcome to join us. There are no age restrictions. Brethren who have just attained the degree of a Master Mason as well as those who have been members of our fraternity for many years are welcome to join us.

How much time is required to complete the courses?

This depends on the time you have. The Directors and Organizers of the courses believe that each level of the college (consisting of 6 courses) can be completed comfortably in a year. It does depend on the amount of time each student has to work through the assignments. Some courses can be completed faster than others. The Constitution of the College give a maximum time limit of 5 years to complete all the course work. Discretion is given to the Dean to extend the time under special circumstances.
